

Gellog
ALWAYS AHEAD

Always Ahead

The Gelog Group operates in the logistics industry providing services such as road transport for foreign trade cargo (at ports and airports), general cargo and oversized cargo, containers, general warehousing, terminal operations, logistics management, and in-house operations. To ensure continued profitable growth for the Group, one of Gelog's premises is to invest in employee training and development, as the company's philosophy is to be always ahead!

Investment

Over the past five years, the Gelog Group has invested in expanding its headquarters, in opening branches, in acquiring Omnitrans Logística and Paulista Terminal, as well as in acquiring vehicles and specialized equipment, with the aim of providing the best logistical solutions. One example is the Pindamonhangaba-SP terminal, which has an area of 40,000m², including 11,000m² of covered warehouses, featuring a modern and secure structure dedicated to handling imported or exported goods, for serving companies in the Vale do Paraíba region, particularly one of its main clients.

The Paulínia-SP terminal, with its 8,000m², is prepared for operations with containers and packaged chemicals, following the same model previously adopted at the Pindamonhangaba-SP branch.

The branches located in Rio Claro-SP, Campinas-SP, and Guarulhos-SP, as well as the offices at the Viracopos and Cumbica airports, enable Gelog to provide quality service in transporting goods using air transportation for foreign trade.

Gelog

Founded in 2002, it is the main company of the group, operating in logistics and road transport of port and airport cargo, general and oversized cargo, general warehousing, container terminal operations, and Redex Permanente operations.

Omnitrans

With 45 years of experience in the transportation business, the company, which is noted for the transportation and storage of chemicals and controlled products, was acquired by the group in 2013.

Paulista

Acquired in 2014 by the Gelog Group, Paulista began its operations in 2011, focusing on container storage and supporting terminal services, as well as the shipment of goods intended for foreign markets.

Road Transport

Gelog offers Road Transportation Services for Imported or Exported Cargo.

Storage

Gelog handles an average of 125,000 tons per month, with a covered area of 22,000 square meters.

Terminal Services

Considering its headquarters and branches, Gelog has an operational area that totals 125,000 square meters.

**PORTFOLIO
OF SERVICES**

Customs Transit

Gelog provides integrated solutions for all stages of the customs transit procedure.

Own Redex

The Special Area for Customs Clearance of Exports (REDEX) offers exporters customized solutions for logistics operations involving the storage of cargo destined for the Port of Santos.

Break Bulk

The main characteristic of Break Bulk is its versatility, as it allows for the transport of large-volume cargoes.

Licenses and Certificates

Gelog is committed to ensuring quality and effectiveness in the provision of transportation, storage, and physical logistics services. To that end, in 2012, it obtained its first SASSMAQ (Evaluation System for Safety, Health, Environment and Quality) certification, which was approved by ABIQUIM (Brazilian Chemical Industry Association) and evaluated by ABS Group Services do Brasil, an internationally recognized certification body.

In 2018, Gelog further improved its system based on the new requirements of the third version of SASSMAQ.

The Integrated Management System (SIG) team is responsible for internal audits to meet the requirements of customers who strive to maintain a high unified standard of service excellence.

NATURAL GAS AND BIOMETHANE POWERED TRUCKS

Natural gas and biomethane-powered trucks achieve the perfect balance between low emissions, power, and range. Continuously investing in HSSE - Health, Safety, Security, and Environment is one of the pillars of the Gelog Group.

SOCIAL RESPONSIBILITY

Gelog is a socially responsible company. We actively participate in social projects such as the Abrinq Foundation and the Na Mão Certa (*"In The Proper Lane"*) initiative. In addition, we organize charitable events aimed at raising funds and providing improvements to organizations within our communities.

SPORTS PROMOTION

Always Ahead

Gelco has been a sponsor of the Pindamonhangaba Cycling Team for over ten years. In addition to cycling, we are also involved in youth soccer and Mixed Martial Arts (MMA) sponsoring the Oktagon fighter, Rafael Xavier, known as Kratos.
